

Master Hunter Elk Permit Hunt Description Toledo

Hunt objectives: elk in this area cause damage to timber company and private lands.

Eligible applicants: Current Master Hunters with any Washington elk license.

Season(s): there are two hunts. The first hunt season is August 22-28, 2011. The second hunt season is December 21-31.

Legal hunting areas: Elk Area 5029 (see map on next page.) The area is within GMU 520 (Winston). See map on page 2 for approximate boundaries in prior years.

Legal animal: Antlerless elk

Legal hunting implement(s): no restrictions other than weapon must be consistent with elk license.

Hunt Coordinator hunt: No

Land access and topography: the designated hunt area is generally lowlands; the highest point within the elk area is approximately 1000 feet above sea level. The land is almost exclusively private; a significant portion is Weyerhaeuser timber company lands.

- Private timber company lands may or may not be vehicle accessible; gates may or may not be locked. Please contact timber company representatives to request access.

NOTES: hunters with access to private lands will have a greater probability of success. Early scouting and contact of landowners is encouraged.
